

## HAND CRAFTED OLIVE WOOD

This product is handmade from Greek quality natural olive wood with a density of 92%.

Olive wood is a very rare, strong and heavy type of wood. It is recognized for its beautiful grain and natural patterning. Due to its rich color and heavy duty qualities, it is a sought-after material for kitchen utensils and decorative items.

Highly durable, highly efficient and most importantly a healthier alternative from other woods, silicon and plastic products.

Wood is a natural resource which is crucial to the balance of life on our planet. Only tree branches from pruned olive trees are used.

Olive wood will last a lifetime if it is properly looked after.

### Caring Instructions:

1. Hand wash in warm water using a mild dishwashing soap.
2. Dry thoroughly with a soft lint-free towel.
3. Once a month rub with oil (olive, peanut or sunflower), i.e. dip a paper towel into the oil and gently rub in circular motion over the surface.
4. Wipe off excess oil with a soft lint-free cloth or a clean paper towel.
5. Do not leave olive wood soaking in water or expose to heat or sunshine.
